Training in Barka (sewerage field)	24 hours	National Engineering office	----

Foundation School	(2011- 2012)	Caledonian College	----
Jabir Bin Zaid High school	2007		

Experience

Exova Ltd LLC (2016)

Training form 04-09-2016 till 31-10-2016

- I was working as a lab technician in the civil department & this is some of the activities which I was doing :
- Testing of the material such as Field density test
- Collecting the sample from the site
- Classifying the aggregate in two types coarse and fine
- Using the Impact value test for aggregate
- Weighting of the sample for both ASTM & BS of the soil
- Using the plastic index test in order to identify the moisture on the sample
- Disposal of the waste material which we have tested
- Washing the sample and drying it in to oven
- Crashing the soil and aggregate by using MDD test
- Identifying the size of aggregate by using the sieve for each one of them
- Sampling the soil by dividing them into half and taking the opposite quarter for each
- Using the flakiness and elongation test for the soil
- Compaction test of the soil
- Calibration of the soil
- Los Angeles test for aggregate

Languages: Very good in speaking, reading and writing English & Arabic

Interest & Hobbies: Acting, singing, drawing, reading books, writing stories
