Number of participants: 4 students

BRIEF REPORT

MCBS Environment Club members had participated in a competition held by the Environmental Society of Oman. The competition was titled “ECOTHON Green Innovations Program” and it was held at Sundus Rotana from 17th – 19th October, 2019. MCBS Environment Club team bagged the 10th place among 97 participating teams and 485 students!

The Green Innovation Eco-thon was an initiative where participating students will work on 3 pre-defined themes over a 3 day period to come up with applications, software and projects using any platform, framework, language, or hardware device and configure it to come up with sustainable solutions. MCBS students came up with an interesting business proposal of installing solar panels in parking lots which could, in turn, significantly reduce the temperatures in that area. MCBS Team consisted of Saud Khamis Al Mazrooei, Rusna Mohamed, Sudipt Jethro Das, Khalid Salim Al Busaidi and Hind Omar Mohammed Ismail.
