

## FIELD TRIP TO BE'AH

### BY

## MCBS ENVIRONMENT CLUB

**Date of Event:** May 11<sup>th</sup>, 2019

**Type of Event:** Site Visit

**Start Time:** 10.30 a.m

**End Time:** 1.00 p.m.

**Number of Participants:** 28 students

A Field trip to Beah was organized for the MCBS Environment Club on 11<sup>th</sup> May, 2019. 28 students and 2 faculty had registered for the event. The trip served as an insight into the waste management problems that the country was facing, especially related to plastic pollution and e-waste. The Club members were also taken to Al Amerat Land fills which was scientifically engineered to significantly reduce the toxic fumes emitted by the landfills. The officials at the landfills informed us about the issues faced with environmentally friendly ways of disposing of plastics. The trip was definitely an eye-opener for the students! A few pics are attached below:
